Room-by-Room Inventory Log

Do one room per sheet. Rough notes are fine — a good-enough list matters more than a perfect one.

Room: _____ **Prepared by:** _____ **Date:** _____

Item	Brand / model / brief description	Bought (approx. ok)	Paid (approx. ok)	Qty	Where in the room / notes

Friendly tip: Start with the big stuff — the TV, the couch, the washer. Estimates are allowed! “Dresser, probably paid around $200 at a yard sale” is a genuinely useful inventory entry. Sketches count too — if a photo exists (or should), jot “photo” in the notes column and use the Photo Caption Card for that page.
